Investor Presentation

Quarter Ended December 31, 2021

Disclaimer

This presentation is neither an offer to sell, nor a solicitation of an offer to purchase, an interest in Oxford Lane Capital Corp. (“Oxford Lane”, “OXLC” or the “Fund”).

This presentation and the summaries contained herein do not purport to be complete and no obligation to update or otherwise revise such information is being assumed. Nothing shall be relied upon as a promise or representation as to the future performance of the Fund. Such information is qualified in its entirety by reference to the more detailed discussions contained elsewhere in the Fund’s public filings with the Securities and Exchange Commission.

There is no guarantee that any of the estimates, targets or projections illustrated in this presentation will be achieved. Any references herein to any of the Fund’s past or present investments or its past or present performance have been provided for illustrative purposes only. It should not be assumed that these investments were or will be profitable or that any future investments by the Fund will be profitable or will equal the performance of past or present investments.

The information contained herein has been derived from financial statements and other documents provided by the portfolio companies and/or the third-party manager of such portfolio companies unless otherwise stated. Certain information discussed in this presentation (including information relating to portfolio companies) was derived from third-party sources and has not been independently verified and, accordingly, OXLC makes no representation or warranty with respect to this information.

Past performance is not indicative of future results. In addition, there can be no assurance that unrealized gains/losses will be realized at the expected multiples shown since actual realized returns will depend on, among other factors, the future operating results of each of the Fund’s current portfolio companies, the value of the assets and economic conditions at the time of disposition, any related transaction costs, and the timing and manner of any realization events, all of which may differ from the assumptions on which the Fund’s expected returns are based. In certain instances, the Company will not determine the timing or manner of disposition of the Company’s portfolio investments.

This presentation contains non-GAAP financial information. OXLC’s management uses this information in its internal analysis of results and believes that this information may be informative to investors in gauging the quality of OXLC’s financial performance, identifying trends in its results and providing meaningful period-to-period comparisons. See “Appendix – Reconciliation of Core Net Investment Income” in this presentation for more information.

Statements included herein may constitute “forward-looking statements,” which relate to future events or the Fund’s future performance or financial condition. These statements are not guarantees of future performance, condition or results and involve a number of risks and uncertainties, including the impact of the COVID-19 pandemic and related changes in base interest rates and significant market volatility on the Fund’s business, its CLO Investments, its industry and the global economy. Actual results may differ materially from those in the forward-looking statements as a result of a number of factors, including those described from time to time in the Fund’s public filings with the Securities and Exchange Commission. Oxford Lane undertakes no duty to update any forward-looking statements made herein, except as may be required by law.

1. Includes non-cash amortization of OID.

2. The CLO debt yield shown is calculated by taking the quarterly distributions received for the CLO debt investments which were scheduled to make a distribution to OXLC (which includes investments where there was full diversion) for the quarters ending 12/31/2021 and 9/30/2021, annualizing such amount and dividing by the current cost basis of those investments for those quarters, respectively.

3. The CLO equity yield shown is calculated by taking the quarterly distributions received for the CLO equity investments (excluding warehouses) which were scheduled to make a distribution to OXLC (which includes investments where there was full diversion for the quarters ending 12/31/2021 and 9/30/2021), annualizing such amount and dividing by the current cost basis of those investments for the quarters ending 12/31/2021 and 9/30/2021, respectively. It does not include CLO equity which had not made its initial distribution by 12/31/2021.

Reconciliation of Core Net Investment Income

We provide information relating to core net investment income (“Core NII”) (a non-GAAP measure) on a supplemental basis. This measure is not provided as a substitute for GAAP net investment income (“GAAP NII”), but in addition to it. Our non-GAAP measures may differ from similar measures by other companies, even in the event of similar terms being utilized to identify such measures. Core NII represents GAAP NII adjusted for additional applicable cash distributions received, or entitled to be received (if any, in either case), on our CLO equity investments. OXLC’s management uses this information in its internal analysis of results and believes that this information may be informative in gauging the quality of OXLC’s financial performance, identifying trends in its results and providing meaningful period-to-period comparisons.

Income from investments in the “equity” class securities of CLO vehicles, for GAAP purposes, is recorded using the effective interest method; this is based on an effective yield to the expected redemption utilizing estimated cash flows, at current cost, including those CLO equity investments that have not made their inaugural distribution for the relevant period end. The result is an effective yield for the investment in which the respective investment’s cost basis is adjusted quarterly based on the difference between the actual cash received, or distributions entitled to be received, and the effective yield calculation. Accordingly, investment income recognized on CLO equity securities in the GAAP statement of operations differs from the cash distributions actually received by the Fund during the period (referred to below as “CLO equity adjustments”).

Furthermore, in order for the Fund to continue qualifying as a regulated investment company (“RIC”) for tax purposes, we are required, among other things, to distribute at least 90% of our investment company taxable income annually. Therefore, Core NII may provide a better indication of our estimated taxable income for a reporting period than GAAP NII; we can offer no assurance that will be the case, however, as the ultimate tax character of our earnings cannot be determined until after tax returns are prepared at the close of a fiscal year. We note that this non-GAAP measure may not serve as a useful indicator of taxable earnings, particularly during periods of market disruption and volatility, and, as such, our taxable income may differ materially from our Core NII.
