**SCHEDULE OF INVESTMENTS – (continued)**  
**DECEMBER 31, 2019**  
**(Unaudited)**

- (1) We do not “control” and are not an “affiliate” of any of our portfolio companies, each as defined in the Investment Company Act of 1940, as amended (the “1940 Act”). In general, under the 1940 Act, we would be presumed to “control” a portfolio company if we owned more than 25% of its voting securities and would be an “affiliate” of a portfolio company if we owned 5% or more of its voting securities.
- (2) Fair value is determined in good faith by the Board of Directors of the Fund.
- (3) Cost value reflects accretion of original issue discount or market discount.
- (4) Investment represents greater than 5% of net assets.
- (5) Cost value reflects accretion of effective yield less any cash distributions received or entitled to be received from CLO equity investments.
- (6) The CLO secured notes generally bear interest at a rate determined by reference to three-month LIBOR which resets quarterly. For each CLO debt investment, the rate provided is as of December 31, 2019.
- (7) The CLO subordinated notes, preferred shares and income notes are considered equity positions in the CLO vehicles. Equity investments are entitled to recurring distributions which are generally equal to the remaining cash flow of the payments made by the underlying vehicle’s securities less contractual payments to debt holders and fund expenses. The estimated yield indicated is based on the prior quarter’s ending investment cost (for previously existing portfolio investments) or the original cost for those investments made during the current quarter as well as a current projection of the future cash flows. Such projections are periodically reviewed and adjusted, and the estimated yield may not ultimately be realized.
- (8) Fair value represents discounted cash flows associated with fees earned from CLO equity investments.
- (9) Investment has not made inaugural distribution for relevant period end. See “Note 2. Summary of Significant Accounting Policies.”
- (10) The CLO equity investment was optionally redeemed. See “Note 2. Summary of Significant Accounting Policies.”
- (11) Securities held as collateral pursuant to repurchase agreement with Nomura Securities International, Inc. See “Note 2. Summary of Significant Accounting Policies.”
- (12) The CLO equity is co-invested with the Fund’s affiliates pursuant to an exemptive order issued on June 14, 2017 by the Securities and Exchange Commission (“SEC”). See “Note 4. Related Party Transactions.”
- (13) Represents cash equivalents held in a money market account as of December 31, 2019.
- (14) The fair value of the investment was determined using significant unobservable inputs. See “Note 3. Fair Value.”
- (15) This investment represents our percent ownership in certain equity securities transferred to OXLC upon the redemption of this investment on October 25, 2018.

**OXFORD LANE CAPITAL CORP.**  
**NOTES TO SCHEDULE OF INVESTMENTS**  
**DECEMBER 31, 2019**  
**(Unaudited)**

**NOTE 1. UNAUDITED INTERIM FINANCIAL STATEMENTS**

The Schedule of Investments of Oxford Lane Capital Corp. (“OXLC,” “we,” “us,” “our,” or the “Fund”) are prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) and pursuant to the requirements for reporting on Form N-Q. Accordingly, certain disclosures accompanying annual and semi-annual financial statements prepared in accordance with GAAP are omitted. In the opinion of management, all adjustments, consisting of normal recurring accruals, necessary for the fair statement of financial condition for the interim periods have been omitted. The Schedule of Investments and notes thereto should be read in conjunction with the financial statements and notes thereto included in the Fund’s Form N-CSRS for the six months ended September 30, 2019, as filed with the SEC.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**INVESTMENT VALUATION**

The Fund determines the fair values its investment portfolio in accordance with the provisions of Financial Accounting Standards Board Accounting Standards Codification (“ASC”) Topic 820, *Fair Value Measurement*. Estimates made in the preparation of OXLC’s Schedule of Investments include the valuation of investments and the related amounts of unrealized appreciation and depreciation of investments recorded. OXLC believes that there is no single definitive method for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments OXLC makes. OXLC is required to specifically fair value each individual investment on a quarterly basis.

ASC 820-10 clarifies the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. ASC 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820-10 also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, which includes inputs such as quoted prices for similar securities in active markets and quoted prices for identical securities in markets that are not active; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions. OXLC considers the attributes of current market conditions on an on-going basis and has determined that due to the general illiquidity of the market for its investment portfolio, whereby little or no market data exists.

***Collateralized Loan Obligations — Debt and Equity***

OXLC has acquired debt and equity positions in Collateralized Loan Obligations (“CLO”) investment vehicles and has purchased CLO warehouse facilities. These investments are special purpose financing vehicles. In valuing such investments, OXLC considers the indicative prices provided by a recognized industry pricing service as a primary source, and the implied yield of such prices, supplemented by actual trades executed in the market at or around period-end, as well as the indicative prices provided by the broker who arranges transactions in such investment vehicles. OXLC also considers those instances in which the record date for an equity distribution payment falls on the last day of the period, and the likelihood that a prospective purchaser would require a downward adjustment to the indicative price representing substantially all of the pending distribution. Additional factors include any available information on other relevant transactions, including firm bids and offers in the market and information resulting from bids-wanted-in-competition. In addition, OXLC considers the operating metrics of the specific investment vehicle, including compliance with collateralization tests, defaulted and restructured securities, and payment defaults, if any. Oxford Lane Management, LLC (“OXLC Management” or the “Adviser”) or the Fund’s board of directors (the “Board of Directors”) may elect to engage third-party valuation firms to provide assistance to our Valuation Committee and Board of Directors in valuing certain of our investments, including, but not limited to, when requested by the Board of Directors or OXLC Management. If a third-party valuation firm is engaged by the Fund, it will provide the Board of Directors with a written report with respect to each investment it has reviewed. The Valuation Committee will evaluate the impact of such additional information, and factor it into its consideration of fair value.

**OXFORD LANE CAPITAL CORP.**  
**NOTES TO SCHEDULE OF INVESTMENTS**  
**DECEMBER 31, 2019**  
**(Unaudited)**

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

***Securities Sold Under Agreement to Repurchase***

The Fund has entered into an agreement (“repurchase agreement”) whereby it sold securities to be repurchased at an agreed-upon price and date. Under this agreement, the Fund accounts for this transaction as a collateralized financing transaction which is recorded at the contracted repurchase amount plus interest. The Fund’s repurchase agreement is carried at cost; which approximates fair value. Refer to “Note 9. Borrowings Related to Securities Sold Under Agreement to Repurchase” in our most recent Semi-Annual Report as of September 30, 2019 for additional information.

**SECURITIES TRANSACTIONS**

Securities transactions are recorded on trade date. An optional redemption (“optionally redeemed”) feature of a CLO allows a majority of the holders of the equity securities issued by the CLO issuer, after the end of a specified non-call period, to cause the redemption of the secured notes issued by the CLO with proceeds paid either through the liquidation of the CLO’s assets or through a refinancing with new debt. The optional redemption is effectively a voluntary prepayment of the secured debt issued by the CLO prior to the stated maturity of such debt. Distributions received on CLO equity investments which were optionally redeemed are first applied to the remaining cost basis until it is reduced to zero, after which distributions are recorded as realized gains.

**NOTE 3. FAIR VALUE**

The Fund’s assets measured at fair value on a recurring basis subject to the disclosure requirements of ASC 820-10 at December 31, 2019, were as follows:

<b>Assets (\$ in millions)</b>	<b>Fair Value Measurements at Reporting Date Using</b>			<b>Total</b>
	<b>Quoted Prices in Active Markets for Identical Assets (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>	
CLO debt	\$ -	\$ -	\$ 46.4	\$ 46.4
CLO equity	-	-	614.2	614.2
Total investments at fair value	-	-	660.6	660.6
Cash and cash equivalents	19.6	-	-	19.6
<b>Total assets at fair value</b>	<b>\$ 19.6</b>	<b>\$ -</b>	<b>\$ 660.6</b>	<b>\$ 680.2</b>

**OXFORD LANE CAPITAL CORP.**  
**NOTES TO SCHEDULE OF INVESTMENTS**  
**DECEMBER 31, 2019**  
**(Unaudited)**

**NOTE 3. FAIR VALUE** (cont.)

*Significant Unobservable Inputs for Level 3 Investments*

In accordance with ASC 820-10, the following table provides quantitative information about the Fund's Level 3 fair value measurements as of December 31, 2019. The Fund's valuation policy, as described above, establishes parameters for the sources and types of valuation analysis, as well as the methodologies and inputs that the Fund uses in determining fair value. If the Board of Directors or OXLC Management determines that additional techniques, sources or inputs are appropriate or necessary in a given situation, such additional work may be undertaken. The weighted average calculations in the table below are based on the fair value within each respective valuation technique and methodology and asset category.

<b>Quantitative Information about Level 3 Fair Value Measurements</b>					
<b>Assets</b>	<b>Fair Value as of December 31, 2019</b> (\$ in millions)	<b>Valuation Techniques / Methodologies</b>	<b>Unobservable Input</b>	<b>Range / Weighted Average<sup>(3)</sup></b>	<b>Impact to Valuation from an Increase in Input<sup>(4)</sup></b>
CLO debt	\$ 40.2	Market quotes	NBIP <sup>(1)</sup>	66.1%-96.6% / 86.8%	NA
	6.2	Recent Transaction Price	Actual trade	69.3%	NA
CLO equity	576.0	Market quotes	NBIP <sup>(1)</sup>	0.3%-85.4% / 46.7%	NA
	35.1	Yield Analysis	NBIP <sup>(1)</sup>	11.3%-23.9% / 16.6%	Decrease
	1.2	Liquidation Net Asset Value <sup>(5)</sup>	NBIP <sup>(1)</sup>	0.6%-8.2% / 4.5%	Increase
CLO equity - side letters	1.9	Discounted cash flow <sup>(2)</sup>	Discount rate <sup>(2)</sup>	14.9%-21.6% / 17.8%	Decrease
<b>Total Fair Value for Level 3 Investments</b>	<b>\$ 660.6</b>				

(1) The Fund generally uses non-binding indicative prices ("NBIP") provided by an independent pricing service or broker on or near the valuation date as the primary basis for the fair value determinations for CLO debt and equity investments, which may be adjusted for pending equity distributions as of the valuation date. These prices are non-binding, and may not be determinative of fair value. Each price is evaluated by the Board of Directors in conjunction with additional information compiled by OXLC Management, including performance and covenant compliance information as provided by the independent trustee.

(2) The Fund calculates the fair value of CLO equity side letters based upon the net present value of expected contractual payment streams discounted using estimated market yields for the equity tranche of the respective CLO vehicle.

(3) Weighted averages are calculated based on fair value of investments.

(4) The impact on fair value measurement of an increase in each unobservable input is in isolation. The discount rate is the rate used to discount future cash flows in a discounted cash flow calculation. An increase in discount rate, in isolation, would result in a decrease in a fair value measurement. Significant increases or decreases in any of the unobservable inputs in isolation may result in a significantly lower or higher fair value measurement.

(5) The fair value of those CLO equity positions which have been optionally redeemed are generally valued using a liquidation net asset value basis which represents the estimated expected residual value of the CLO as of the end of the period.

**OXFORD LANE CAPITAL CORP.**  
**NOTES TO SCHEDULE OF INVESTMENTS**  
**DECEMBER 31, 2019**  
**(Unaudited)**

**NOTE 4. RELATED PARTY TRANSACTIONS**

***Co-Investment Exemptive Relief***

On June 14, 2017, the Securities and Exchange Commission (the “SEC”) issued an order permitting OXLC and certain of its affiliates to complete negotiated co-investment transactions in portfolio companies, subject to certain conditions (the “Order”). Subject to satisfaction of certain conditions to the Order, OXLC and certain of its affiliates are now permitted, together with any future business development companies, registered closed-end funds and certain private funds, each of whose investment adviser is OXLC’s investment adviser or an investment adviser controlling, controlled by, or under common control with OXLC’s investment adviser, to co-invest in negotiated investment opportunities where doing so would otherwise be prohibited under the 1940 Act, providing OXLC’s stockholders with access to a broader array of investment opportunities.

Pursuant to the Order, OXLC is permitted to co-invest in such investment opportunities with its affiliates if a “required majority” (as defined in Section 57(o) of the 1940 Act) of its independent directors make certain conclusions in connection with a co-investment transaction, including, but not limited to, that (1) the terms of the potential co-investment transaction, including the consideration to be paid, are reasonable and fair to OXLC and its stockholders and do not involve overreaching in respect of OXLC or its stockholders on the part of any person concerned, and (2) the potential co-investment transaction is consistent with the interests of OXLC’s stockholders and is consistent with OXLC’s then-current investment objective and strategies.

Item 2. Controls and Procedures.

(a) Based on an evaluation of the Disclosure Controls and Procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended, the “Disclosure Controls”) as of a date within 90 days prior to the filing date (the “Filing Date”) of this Form N-Q (the “Report”), the Chief Executive Officer (the Company’s principal executive officer) and Chief Financial Officer (the Company’s principal financial officer) have concluded that the Disclosure Controls are reasonably designed to ensure that information required to be disclosed by the Registrant in the Report is recorded, processed, summarized and reported by the Filing Date, including ensuring that information required to be disclosed in the Report is accumulated and communicated to the Registrant’s management, including the Registrant’s principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) There were no changes in the Registrant’s internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the Registrant’s last fiscal quarter that have materially affected or are reasonably likely to materially affect the Registrant’s internal control over financial reporting.

Item 3. Exhibits.

Certifications of chief executive officer and chief financial officer as required by Rule 30a-2(a) under the Investment Company Act of 1940.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

OXFORD LANE CAPITAL CORP.

By: /s/ Jonathan H. Cohen  
Name: Jonathan H. Cohen

(Principal Financial Officer)

Date: February 4, 2020

Exhibit 12(a)(2)  
Rule 30a-2(a) Certification

I, Jonathan H. Cohen, Chief Executive Officer of Oxford Lane Capital Corp., certify that:

1. I have reviewed this report on Form N-Q of Oxford Lane Capital Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the schedule of investments included in this report, fairly present in all material respects the investments of the registrant as of the end of the fiscal quarter for which the report is filed;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) and internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) for the registrant and have:
  - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, is made known to us by others within the registrant, particularly during the period in which this report is being prepared;
  - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of a date within 90 days prior to the filing date of this report based on such evaluation; and
  - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Dated this 4<sup>th</sup> day of February, 2020

/s/ JONATHAN H. COHEN
